Engagement with India

Carleton University's

Canada-India Centre for Excellence in Science,
Technology, Trade and Policy

Carleton
UNIVERSITY

Canada's Capital University

Carleton's Canada-India Centre for Excellence (CICE)

- Carleton University involved with research in India and related to India for more than 25 years
- Formal agreements with over 2 dozen institutions in India (e.g. TIFR, IISc, IITs, BITS-Pilani, Anna University, TERI, FICCI, ISI, JGU, University of Delhi, etc.)
- Sharing expertise in international relations, public affairs, science, technology and the arts
- Established partnerships with the business community linking research with economic development
- Community-based research and engagement to address community needs

Carleton's CICE: Strategic Relationship Building

- Activities to promote trade partnerships, economic development, scientific and cultural links
- Game changing and incremental innovation and research that addresses problems of mutual interest
- A collaborative R&D setting that brings together experts from multiple sectors and institutions
- Investment and economic opportunities and benefits for businesses in India and Canada
- Exchange of students, postdoctoral fellows, and academics

Carleton's CICE

- Quality students and interns
 - Trained in collaborative cross-disciplinary environments
 - Leadership skills and team approaches to solve fundamental and real-world problems
 - Value of community engagement and entrepreneurial approach
- Rich environment for visiting appointments and academic exchanges
- Leveraged research investments with academic partners
 - Collaborative research and development (eg. IDRC, ISTPP)
 - Capacity building (eg. CIDA)
- Critical conversations and conferences
 - Provocative multi-sector dialogue to explore and advance evidence-based policy alternatives
