MESSAGE

I am pleased to learn that Canada-India Business Council, together with Canada-China Business Council, is organizing 'Synergy 09 - Education Conference' which seeks to enhance Canada's educational linkages with two of world's biggest and most dynamic players in the education field - India and China.

With the previous two such conferences focussed on India, I am sure the upcoming event will continue to demonstrate the growing interest in promoting Canada-India educational relations. The conference will prove an excellent opportunity to exchange ideas and learn from each other about the evolving opportunities in the education arena.

With best wishes,

Joseph Caron
High Commissioner
